Overview

I am an experienced prosthodontist seeking a part-time position in the field of esthetic and prosthetic dentistry, where I can confidently apply my knowledge, skills and experience for crafting the best cases results.

Work Experience

10 Years Experience of Teaching at Fixed Prosthodontics Department, Suez Canal University (2013-present)

- I have provided stimulating learning environments, encouraging students to actively engage and acquire practical skills in the specialty, while also keeping their knowledge up-to-date with the latest advances.
- Explored and developed innovative approaches to problem-solving, whether through processes, technology, or collaboration with team members, to enhance overall efficiency.

Dental Practitioner since (2012-present)

- I have extensive experience in CAD/CAM dentistry and digital smile design, with fully documented cases completed by me using the CEREC in-office CAD/CAM system.
- My practice primarily focuses on esthetic and restorative dentistry, offering a wide range of treatments including smile makeovers and full mouth rehabilitation cases.
- I treat patients with empathy, providing reassurance to minimize anxieties and enhance patient comfort.
- collaborated with team to provide excellent care in a positive patient care environment
- I take great care in creating personalized treatment plans that cater to each patient's individual needs.
- I understand the importance of sticking to appointment schedules to minimize wait times and ensure that patients feel valued and respected.

Education

MASTER DEGREE in Fixed Prosthodontic

(2022 - suez canal university)

- Evaluation of three different digital intraoral scanners with one milling CAM unit.
